Speculative Apathy in Stock Market Holds Price Changes to Narrow Limits and TRUST COMPANY

BALTIMORE AND OHIO

Caused by Threat of Labor Trouble in Coal Regions-Trading of No Importance.

NEW YORK, Feb. 15 .- Stock specula tion this morning was again restricte listless. Traders appeared to b entirely indisposed to operate, and th few shares which changed hands repre sented merely a nominal market. Fluo tations were so narrow as to call fo little mention.

Some heaviness was shown by Balti more and Ohio in consequence of th threatening aspect of the wage negotiations in the bituminous coal regions The market at 11 o'clock was almost a

a standstill, with no tendency at all dis cernible either in quotations or tradin sentiment. The bond market was quiet Government bonds unchanged.

The market opened dull and flat. The the international list prices followe London. The notable fluctuation was a gain of ½ in Illinois Central on a single transaction, and an opening gain of ¾ in Mexican Central, but the latter was

NEW YORK, Feb. 15.-Immediately after the opening the cotton market eased off under selling by the room trade. Liverpool followed the break here, but buying orders from New Orleans came

buying orders from New Orleans came to hand and a rally occurred. Business was mostly professional, with the commission houses opposed to extensive new ventures till more was known as to receipts. War news attracted only passing attention. Sully was in the pit but took no active part.

At the close of the first hour the market was holding fairly steady at a decline of some 10 to 15 points with trade dull and entirely without incentive. Then came the report of serious Russian reversals at the hands of the Japanese, under which hasty selling set in. Sentiment swung around bearish, and short sales were made with considerable confidence. New Orleans stopped buying here.

NEW YORK STOCK MARKET. CURRENT' NEWS AND GOSSIP OF INTEREST TO INVESTORS

The export trade of the United States is growing, and now that cotton prices have reacted, the chances will favor an increased export movement of this pro-

Investors evidently are not uneasy over the Eastern war situation or results of the Baltimore fire, as they doubtless appreciate the fact that the United States will not be put out of business by foreign wars or domestic

It is very hard to get up much of a scare in the stock market with general business as good as it is now and security prices at their present low level, when money can be borrowed to hold stocks at 1½ per cent from day to day, and at 4½ per cent for a period carrying it over the Presidential election.

According to trustworthy advices, the export trade of the Steel Corporation increased heavily in January and is still increasing.

The export trade of the United States is growing, and now that cotton prices is growing, and now that cotton prices is growing.

The large bank loans are still a part of the financial situation that is not liked, but apprehension over the matter—as yet merely academic—has been considerably assuaged by the continual and confident private declarations of great bankers, whose sagacity in such matters has been attested in the past, that this merely represents the retirement of the trust companies from the loan market, while prevailing rates for call and time money are so low, and that when these rates tighten a little we will see bank loans fall.

business as good as it is now and security prices at their present low level, when money can be borrowed to hold stocks at 1½ per cent from day to day, and at 4½ per cent for a period carrying it over the Presidential election.

The fact that there was no outpouring of stocks as a result of the serious losses in Baltimore and the beginning of hostilities in Eastern waters reflects the absence of weak holdings and the strength of conditions underlying the market. Liquidation was so thorough last year that apparently there is nothing left to liquidate at this period.

POTOMAC RIVER BLOCKED AS FAR AS INDIAN HEAD

Conditions in Chesapeake Bay Constantly Growing Worse.

According to Harbormaster Sutton, the ice on the Potomac River is worse now than it has been at any previous time this winter. Everything is blocked and only the big Norfolk boats and the mail steamers are able to get in and out. The block extends as far as In-dian Head and for some distance be-

dian Head and for some distance beyond.

The conditions in Chesapeake Bay are equally bad and are growing worse all the time. Navigation there is tied up and the entire bay is full of floating ice, kept open in certain parts only by the ice fleet. Between Sandy Point and Baltimore the worst conditions prevail, and a number of boats have had to put into Annapolis Harbor for refuge in the past week.

Harbormaster Sutton said this morning he would make no effort at present to break up the ice here, unless it began running, but whenever it looks dangerous he will go to work on it.
